

Village of Crooksville
Council Workshop Meeting
April 22, 2024

Mayor Mohler calls the meeting to order with the following council members present: Mr. Hampton, Mr. Locke, Mr. Loomis, Mr. Redfern, Ms. Smith and Mr. Walters. Lacey Tumblin and Courtney Edwards were also present.

First up on the agenda, Mrs. Tumblin wanted to touch base on the list of things that have been done by the village. The first set of things on the list were from 2017-2022, a list put together by Tom Collins. The Main St and Industrial bridges have been completed; the sidewalk has not been completed but we do have a grant out for it. The storm water catch basin clean out replacement program; the storm water charge was added to the water bills for that. Paving for this October will be South State and South Buckeye Hill to Ridge Ave. The State Highway beautification project: we had the trees cut back along 93. The phase 2 & 3 of China St haven't moved far. After we get done with B1 & B6 project, Grant could update that. The downtown revitalization is a work in progress. The China St sidewalks have been done. The baby pool project is waiting to hear back from the State. The restroom facility at the park is open. The walking path at the park is in talks and Chris Rice will be at the first workshop in May to discuss that. The paving after the water line project, most of those have been done or on the list to be done. The next list is from 2019-2020. The B1, B6 are in progress and moving along, as well as the Fairview Heights booster station. We are hoping that in July we are able to have the water plant offline. Chlorine monitoring was implemented in 2022. The GIS contract with RCAP in 2022. The insulation with online thermostats and she has talked to George, and they are going to get those ordered. The bulk water sales only take credit card, and they see no reason to move it down close to the Service Garage now. The dispute with Roseville has made headway. Things that were not on the list: Cherry Lane, new concrete around the pool was done in 2021 and the disc gulf was done in 2022. Working on repairs to the pool house, new roofs on the Beaumont building, the water shed, the concession stand at the old football field, new salt bin, the Buckeye St bridge replacement is in progress, the new fire station was put up, the old East School was demolished, we have a hand full of radio reads to install, the storm drain on Washington St, the cleanup of the impound and the slippage on Sycamore St.

Next up, Mrs. Tumblin stated that they have Jamie Embrey that has applied for the Pool Manager. She will be put on for the next regular Council Meeting.

Next, Mrs. Tumblin stated that she was at South Park with the guys today and the slide is terrible. They are going to tear that part down and try to figure out a way to replace it. Also to utilize the piece of equipment that the school donated so we could have two play areas for the kids.

Executive Session 121.22 (G)(3) Litigation.

Out of Executive Session.

Without any further discussion, the meeting is adjourned.
