

Village of Crooksville

Workshop Minutes

August 9th, 2021

Mayor Mohler calls the meeting to order with the following members present; Mr. Locke, Ms. Smith, Mr. Hampton, and Mr. Loomis. Tom Collins and Jan Baughman were also present. Mr. Rice and Mr. Allen were both absent.

First up on the agenda is Daniel McBane with McBane Insurance. He is here to discuss our upcoming property insurance renewal. Last year we moved our package to Public Entities Pool known as PEP. Cyber Insurance is big right now and PEP includes cyber liability. The insurance market is in the hardest market it has seen since the 1980s. Prices are going up and property insurance is getting the hardest hit. He goes over some premiums and liabilities.

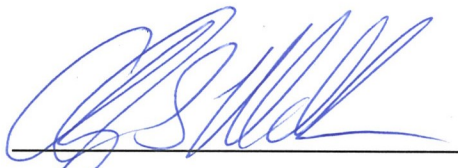

Lee Murphy addresses council with some concerns on the football field. There's a pretty lengthy discussion regarding the letter that was sent out from the school. The last school meeting went good and council had high hopes for what was to come. On Friday there was a letter sent out that took everyone by surprise. Tom talked to a company called US Utilities, they're offering to do all the electrical work at the field for free. They have good communication with AEP. Council is awaiting talk with the Athletic Association and/or school to see what they want to do to move forward.

There's a section of roof above the karate and weight room at the Rec Center that needs replaced. Shingles have blown off and there is a large area of plywood showing. Tom will get some quotes on putting metal back on.

Joey Carr with Junction City is asking for 10 old, surplus hydrants. They are wanting to do a painting project on the walking trail.

Asphalt Paving will begin tomorrow. They will be paving Short North Street, a section on North Buckeye, Alley between Hull and High Streets, China Street and a few other spots.

Without any further discussion, the meeting is adjourned.

CHRIS MOHLER
Mayor

MARILYN HORNER
Fiscal Officer
